NEIGHBORHOOD PETITION

Help Protect Our Wetlands and Support a Better Solution for the Fire Department

We are asking our neighbors to sign a community petition so we can respectfully request that the City not rely on the Conservation Commission's positive recommendation for the proposed waterline project at **25 Teak Drive**.

The Commission did not base its vote on the impacts to the wetlands or buffer zones. Instead, members stated they were voting in support of having trained firefighters, which we all value, but that is not related to reviewing environmental disturbances. We want this decision to be made with accurate information about the real effects on our natural resources.

The current plan would clear a **20-foot-wide, 1,100-foot-long corridor** through wetlands, buffer areas, and forest. This is unnecessary because there is a better alternative solution using underground drilling to provide the Fire Department with the same water service **at the same cost**, without damaging the environment.

We fully support the Fire Department and want them to have the resources they need. That is why we are asking the City to consider the environmentally friendly option that avoids all wetlands disturbance.

PLEASE SIGN THE PETITION

It takes less than one minute and greatly helps our neighborhood.

II. Google Forms Full Petition Description

PETITION REQUESTING THAT THE ZONING BOARD OF ADJUSTMENT DISREGARD THE CONSERVATION COMMISSION'S FAVORABLE RECOMMENDATION FOR THE FIRE DEPARTMENT WATERLINE PROPOSAL AT 25 TEAK DR.

To: Nashua Zoning Board of Adjustment

Re: City of Nashua Fire Department Waterline Proposal – 25 Teak Drive

Date: November 21, 2025

We, the undersigned residents of Westgate Village, Teak Dr. and surrounding area, respectfully request that the Zoning Board of Adjustment DISREGARD the Conservation Commission's favorable recommendation issued on November 5, 2025.

This petition concerns only the procedural and substantive issues with the Conservation Commission's recommendation itself, as documented in the official minutes.

I. The Conservation Commission's Vote Was Based on Irrelevant and Improper Justification

The Conservation Commission is responsible for reviewing wetlands and buffer impacts. However, the official minutes record the Chair stating:

"I am going to make a motion for a favorable recommendation because I think it's very important if any of our houses burn down that we have trained fireman to help with that situation..."

This justification:

- Does not mention wetlands
- Does not mention buffer disturbance
- Does not address ecological impacts
- Falls outside the Commission's authority

The favorable recommendation was therefore based on irrelevant and improper grounds.

II. The Conservation Commission Acknowledged It Lacked Complete or Reliable Information

The Chair stated on the record that:

- Applicants have lied to the Commission in the past
- The City has previously said one thing and done another
- The Commission "votes in good faith" with whatever information is given

- The Commission has no control after applicants proceed

These statements confirm that the Commission lacked the verified, reliable information required for a sound recommendation.

III. Commissioners Indicated the Decision May Have Been Premature

The minutes show commissioners expressing concern that:

- They had not been provided full information
- They did not yet understand all impacts
- A favorable vote might be premature

Despite this, the Commission still proceeded with a positive recommendation. This demonstrates that the decision was rushed and not fully informed.

IV. Conclusion

Because the Conservation Commission's favorable recommendation was based on:

- Improper justification,
- Acknowledged unreliable and incomplete information, and
- Premature deliberation,

we respectfully request that the Zoning Board of Adjustment:

DISREGARD the Conservation Commission's favorable recommendation.

III. 154 Signatories to Petition Opposing the 25 Teak Drive Waterline Proposal

	Timestamp	Address	Name
1	11/20/25 19:36	22 Teak Drive	Mike LaRocque
